Conference organized by
District 3330.

Jakchai Visutthakul Governor (Sei-san) gave me the invitation but unfortunately I already have other domestic Rotary event on same day, so I couldn't participate this time.

So, our district Past Governor Mr. Takeshige Kudo and his partner Ms. Takako participating instead of me.

Ms. Takako is also the district Rotary Public Image Chair.

From January 21st to Jun 23rd, 6 members including Mr.Kudo the Past Governor and me, visited elementary school and junior high school of your district for took a tour of sanitary facilities such as water purifier, toilet and so on.

Every children welcomed us, and they look so happy for new facilities.

That's makes us so happy too.

I told the children that our district has a lot of snow in winter.

Many of them told us never seen snow.

After long wintertime, snows are melt and change into water.

Snows of winter gift us pure water in our country.

Snows are not only romantic but also snow removal is big burden for people live in there.

That's why we people living in snow country know the importance of pure water. _____
